Althing Board of Strategic Advisors

Dr. Tim Sielaff
Former Chief Medical Officer of Allina Health and now Chief Medical Officer (CMO) for Althing. Tim is a known as a respected physician executive and educator who tackles today's complex strategic challenges to identify novel solutions that deliver better and more affordable care for more individuals. With a deep understanding of essential clinical and business intersections, he has successfully unlocked novel solutions that deliver sustainable value in multiple health care settings.

Tim's leadership experiences are across an integrated health system, physician group management, ACO, Board governance, data analytics, state-wide health policy, data analytics/insights/improvement and as a respected surgeon.

Dr. Paul Goering
Paul Goering, MD, a healthcare executive who left his role as Vice President of Mental Health and Addiction Services at Allina Health in June of 2020. In that role he lead Allina's Behavioral Health work across the system for 13 years. In this time that now follows, he works with Althing to help transform our collective capacity to serve those in need.

A board-certified psychiatrist, Dr. Goering cared for patients at United Hospital in St. Paul since 1992. Prior to his role leading mental health services for Allina Hospitals & Clinics, Dr. Goering serviced as medical director of United Hospital's mental health department.

Dr. David Krenz
David has served as Superintendent of Austin Public Schools since 2009. Previous to Austin, he served as Superintendent, High School Principal and Assistant Principal, Director of Technology, and math and science teacher in Wisconsin and Minnesota school districts over his 40+ year career in education. David earned his Bachelors, Masters and 6th Year degrees from Winona State University. David is a 2010 Leadership Austin Alumni, past member of the Board of Directors for the Minnesota Association of School Administrators, Recipient of the Regional Administrator of Excellence Award from MASA, and a member of the Austin Rotary, Kiwanis, and Lions Clubs.

William Welch

Bill Welch lead an 800+ person global innovation, development, and engineering organization, including 4 design centers, 3 tool and automation build operations, PMO, technical services, and site-based NPI and validation engineering teams. He is involved in the portfolio development of drug delivery platforms and a connected device cloud data platform, to provide a full end-to-end offering to biopharma customers, complementing decades of experience in contract development and manufacturing services.
